

1st April 2025: Chattenden Primary School joins Inspire Partnership

Dear Parents and Carers

We are thrilled to officially welcome Chattenden Primary School into the Inspire Partnership family! Following the successful transfer, we are excited to start this new chapter together, building upon the strong foundations already established at Chattenden.

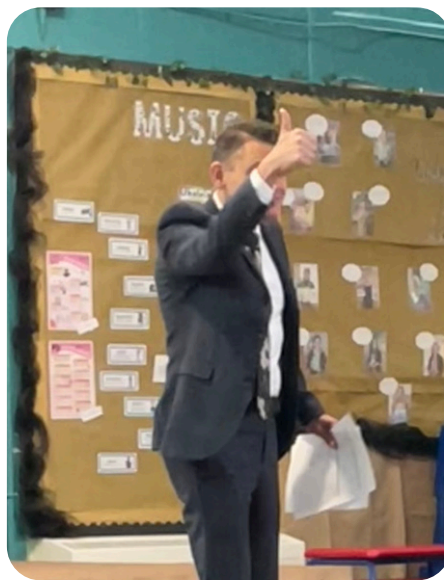

We have held assemblies across all our Medway schools to mark the occasion and welcome Chattenden's children and staff. These featured a special film created collaboratively by children and staff from across the Inspire Partnership.

The children of Delce Academy, Elaine Primary School, and Maundene School created and gifted beautiful artwork to Chattenden during the assembly. This artwork represents each school and the welcoming and collaborative spirit of the Inspire Partnership. Chattenden children will add to this artwork in the coming days, making it a truly collaborative piece.

A range of new non-fiction books has been added to the Chattenden library, offering diverse learning opportunities and encouraging a passion for reading. A class set of Chromebooks has also been provided to facilitate digital learning and equip the children with essential technological skills.

“Chattenden Primary School is delighted to be joining the Inspire Partnership Academy Trust, a collaboration that will enrich our children's learning and provide exciting new opportunities for growth. Working in partnership will enable us to build upon our work here at Chattenden, enhancing our curriculum and strengthening our ability to support every child in reaching their full potential.

This partnership will allow us to share expertise, develop innovative teaching practices and build capacity within our school community, ensuring the very best outcomes for all children.

We are excited about this this new chapter and the positive impact this partnership will have on the whole school community.”

Ms North
